| • BEM | • Gulp.js | • Foundation | |
| • JavaScript | • Grunt.js | • Atlassian stack | |

PROFESSIONAL EXPERIENCE

Nebo Agency

Front-End Engineer

Atlanta, GA

November 2018 - January 2023

- Engineered 20+ interactive websites and applications by collaborating with back-end engineers, designers, copywriters, UX strategists, and project managers.
- Participated in wireframe reviews, design reviews, front-end planning, time estimations, and weekly stand-up meetings with cross functional teams to achieve internal and external deadlines.
- Mentored junior engineers so that they learned best practices, and SOP of our Engineering team.
- Interfaced directly with clients to discuss project requirements, and presented finished work to them in order to showcase functionality and accuracy of code when compared to approved static design.
- Executed QA on projects by performing testing and fixes for WCAG compliance, cross-browser check, and evaluating functionality on multiple devices.
- Refactored legacy code and brought up to modern standards.
- Developed front-end engineering SOP documents to onboard front-end engineers.
- Hosted Engineering Show & Tell, a bi-weekly meeting where rotating presenter(s) showcased a feature they had recently built, or researched.
- Representing Nebo Agency as a volunteer at industry events.

Freelancer

Front-End Engineer

Atlanta, GA

October 2017 - October 2018

- Utilized React on Node.js tech stack in order to develop IoT app tracking client assets including fleet tracking.

ICON

Front-End Engineer

Atlanta, GA

February 2016 - September 2017

- Partnered with a client's engineering team to create a web app using Angular 2 that organized complex healthcare data for doctors.
